

I'm not robot!

From Final Fantasy XIV A Realm Reborn Wiki Jump to navigation Jump to search See also: Blue Mage and list of blue mage actions When you defeat an enemy after it has used that spell, you have a chance of learning it. Doing instances either premade with no Undersize options selected or with both Undersize and Level Sync options make the spell a 100% learn rate. Spell chances in the open world or Masked Carnivale are RNG based on the number of stars for that spell. If you die before the enemy does you will not learn the spell. You must be alive as it dies in order to learn the spell. Killing an enemy with Self-destruct or Final Sting will result in failure to learn the spell. Spells acquired by Whalagee Totem are bought in Ul'dah near the Blue Mage trainer. Min Lv indicates the minimum level that the spell can be attained. Masked Carnivale, FATE, or Elite Mark is not taken into consideration. World Mob L takes only the level of Open World, FATE and Elite Mark mobs into consideration while Duty L takes only Dungeons, Trials, Raids and the Masked Carnivale into account. A ~ means there is no relevant information (such as there being no open world mob with the spell). All Blue Mage spells can be used at Level 1. Spell No. Rank Type Min Lv World Mob L Duty L How to Acquire Water Cannon 1 ★ Default 1 ~ ~ Default Flame Thrower 2 ★★★★★ Dungeon Raid 50 ~ 50 Goblincannon GVI from Brayfflox's Longstop (Hard) Einhander from The Keeper of the Lake Magitek Gunship from The Keeper of the Lake Omega from Alphascap V3.0 Aqua Breath 3 ★★★★★ Trial 50 ~ 50 Ultros from The Dragon's Neck Leviathan from The Whorleater (Hard), The Whorleater (Extreme) Ultros from Stage 20 Masked Carnivale -
